Application No. 10/630,834  
Filed: July 31, 2003  
For: OPTICAL INFORMATION STORAGE  
MEDIUM AND METHOD OF RECORDING  
INFORMATION THEREON

:  
: DECISION ON PETITION  
: TO MAKE SPECIAL  
:  
:

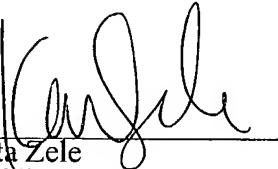

This is a decision on the petition filed July 31, 2003 under Manual of Patent Examination Procedure §708.02, VIII requesting accelerated examination. This decision is also responsive to the communication filed April 9, 2004 requesting entry of the petition to make special filed on July 31, 2003.

The petition under Manual of Patent Examination Procedure §708.02, VIII, must:

- (1) be filed prior to receiving any examination by the examiner,
- (2) be accompanied by the required fee- \$130,
- (3) the claims should be directed to a single invention (if it is determined that the claims pertain to more than one invention, then applicant will have to make an election without traverse or forfeit accelerated examination status),
- (4) state that a pre-examination search was made, and fully discuss the search method employed, such as classes and subclasses searched, publications, Chemical abstracts, patents, etc. A search made by a foreign patent office satisfies this requirement,
- (5) be accompanied by a copy of each of the references most closely related to the subject matter encompassed by the claims if said references are not already of record,
- (6) fully discuss the references, pointing out with the particularity required by 37 C.F.R. §1.111(b) and (c), how the claimed subject matter is patentable over the references.

The petition meets all the above-listed requirements. Accordingly, the petition is **GRANTED**.

The application will retain its special status throughout its entire prosecution, including any appeal to the Board of Patent Appeals and Interferences, subject only to diligent prosecution by the applicant. After mailing, the application will be forwarded to the examiner for immediate handling.
